

# AMR KHALED

## SOC Analyst

+20 155 502 6100   amrkhalid25sh@gmail.com   linkedin.com/in/amr-khaled-010475254   Cairo, Egypt

### SUMMARY

Recent Computer Engineering graduate specializing in Cybersecurity with a strong foundation in network security, digital forensics, and Security Operations Center (SOC) concepts. Gained practical experience through internships, hands-on cybersecurity labs, Capture The Flag competitions, and security-focused projects. Eager to begin a career as a SOC Analyst or Cybersecurity Instructor, applying strong analytical, problem-solving, and technical skills while continuously learning and contributing to organizational security.

### TECHNICAL SKILLS

#### Security Operations (SOC):

Security Monitoring, Incident Investigation, Log Analysis, Alert Triage, Threat Intelligence, MITRE ATT&CK, Cyber Kill Chain, Zero Trust.

#### Digital Forensics & Incident Response (DFIR):

Autopsy, Volatility, FTK Imager, EZ Tools.

#### Networking:

CCNA Fundamentals, Cisco Packet Tracer, Routing & Switching, Wireshark, Snort, Network Traffic Analysis.

#### SIEM & Log Management:

Splunk, Elastic Security, KQL.

#### Programming & Scripting:

Java, Python, PHP, Bash.

#### Threat Intelligence & Malware Analysis:

VirusTotal, OpenCTI, URLScan, ANY.RUN, IP Lookup, OWASP Top 10.

### EXPERIENCE

#### Network Internship

##### IX Solutions

Jul 2025 – Sep 2025   Mansoura, Dakahlia, Egypt

- Configured and troubleshot enterprise network topologies, reinforcing routing, switching, and basic network security controls.

#### Java Developer Internship

##### Information Technology Institute (ITI)

Jan 2025 – Sep 2025   El Alamein, Matrouh, Egypt

- Completed the Orange Belt Program covering Database Systems, Java, Object-Oriented Programming, and Data Structures.
- Developed a complete Java-based final project and received an A grade.

#### Cybersecurity Instructor (Volunteer)

##### IEEE Student Branch

Feb 2025 – Jun 2026   Alamein International University

- Delivered cybersecurity sessions covering networking, SOC fundamentals, and defensive security concepts.
- Assisted students in hands-on cybersecurity labs and practical exercises.

### EDUCATION

#### BS in Computer Engineering, Cybersecurity major

##### Alamein International University

01/2023 - 08/2027   Alamein

GPA

3.6 / 4.00

### PROJECTS

#### Autonomous Secure P2P Networking Framework (Java)

- Designed and developed a decentralized peer-to-peer networking framework for cyber-warfare simulations and critical infrastructure monitoring.
- Implemented UDP multicast discovery with automatic TCP session promotion using a Finite State Machine (FSM).
- Applied Zero-Trust networking principles through cryptographic challenge-response authentication.
- Secured communications using AES-GCM authenticated encryption.
- Developed with Java, TCP/UDP sockets, multithreading, and secure logging best practices.

#### Stealth Image Steganography Platform

- Designed a cybersecurity-oriented image steganography platform capable of concealing both payload content and payload existence.
- Implemented Least Significant Bit (LSB) steganography across RGB channels with imperceptible visual distortion.
- Developed a structured payload header supporting reliable embedding and extraction.
- Built an interactive desktop application featuring a custom cybersecurity-themed graphical user interface.
- Implemented secure extraction logic and payload validation mechanisms.

## **CERTIFICATIONS**

---

### **Ethical Hacking Essentials (EHE)**

EC-Council

### **SEC450 - GSOC**

Netriders

### **SEC504 - GCIH**

Netriders

### **SOC Level 1**

TryHackMe

## **HANDS-ON LABS & CTFs**

---

### **Hack The Box**

Completed hands-on SOC Analyst learning paths covering Windows, Linux, Active Directory, Web Security, Enumeration, and Incident Response.

---

### **TryHackMe**

Sapphire League. Solved 115+ cybersecurity labs. Ranked in the Top 2% globally. Completed SOC Level 1 learning path and multiple Blue Team modules.

---

### **Capture The Flag (CTFs)**

Active in cybersecurity competitions such as Egypt National Cybersecurity CTF TOP 21, ICMTC, with hands-on experience solving DFIR challenges and labs on Cyber Defenders, HTB, THM.
